CAPITOL IS READY FOR INAUGURATION

Thousands Are Depending On Dimes March

Thousands of polio victims are depending on an all-out 1953 March of Dimes as their only hope for getting crippled limbs back into action, according to Bob Miller, county campaign director of the 1953 March of Dimes.

"Youngsters paralyzed by polio outgrow expensive braces, crutches and other orthopedic devices with the same speed normal children outgrow shoes," he stated. "Many polio victims recover quickly and completely but too frequently the disease leaves its crippling trademark on children and adults who many require several years of treatment before they are able to return to even a near-normal way of life."

Mr. Miller pointed out that Calloway county patients stricken in former years are still receiving some measure of March of Dimes assistance from the Calloway County Chapter.

"Polio cases, skyrocketing to a new high in 1952, included an enormous increase in respiratory cases," he reported. "This is the most expensive type of polio to treat. March of Dimes assistance to victims has totaled more than \$100,000 in just the past year in Calloway county."

"Your generous support is needed to continue important programs of polio patient care," Mrs. Miller stressed. "Join the March of Dimes. Make your contribution today."

New Chapter Of Library Science Group At MSC

NATCHITOCHEES, La. — Two new chapters of Alpha Beta Alpha, the only national library science fraternity in the country, have recently been installed and three other chapters will be installed in the near future. Dr. Eugene Watson, the fraternity's national executive secretary, announced today.

Watson, librarian at Northwestern State college here, stated that the Delta chapter of Alpha Beta Alpha was installed at the University of Alabama, Jan. 10, and the newest chapter came into existence at Murray State college Jan. 17. Dr. Watson installed the Alabama chapter and Dr. Lawrence Thompson of the University of Kentucky officiated at the installation of Murray's Epsilon chapter.

Dr. Rob Mason's Car Catches Fire

Firemen were called this morning about 7:05 North Fifth street, when the Cadillac automobile of Dr. Rob Mason caught fire.

The fire was under the hood of the automobile, apparently started by a short circuit in the wiring.

Firemen used the water fog guns to extinguish the blaze. Considerable damage was estimated to have occurred.

Capsule Comments

By United Press

A woman society reporter, in Washington to cover the woman's angle during the inauguration festivities, said:

"I've never seen so much mink."

Mrs. Eleanor Roosevelt saluted the inauguration of President-elect Eisenhower tomorrow.

"It is a good thing for an occasional change."

William Furman a freshman at Ohio State University, who had to wait while jail officials searched for the records before he could be sentenced disposed on him for speeding.

"I hope it doesn't take me as long to get out as it did to get in."

And the Vice of Bomor, England, looking with alarm at the record of 60,000 divorces a year in Britain.

"If things go on as they are we shall soon have marriage and divorce by coupons over the post office counter."

County Residents Get \$185,044 In Public Assistance Payments

FRANKFORT, Ky.—Residents of Calloway County drew \$184,044 in public assistance payments during the past calendar year out of a total outlay of \$33,187,055 provided by the state and federal governments, according to a report by the Department of Economic Security.

The report showed \$22,194,421 distributed for old age assistance, \$12,435,798 for dependent children, \$10,000 for aid to the needy blind, and \$9,413,805 for aid to the needy blind.

Payments in Calloway County were:

Old age assistance \$168,732; dependent children, \$13,683; and aid to the needy blind, \$1,629.

Old age payments increased an average of \$5.39 during the year, to a monthly average of \$35.03. The number of old age recipients increased from 65,858 in December 1951 to 56,197 last month.

Aid to the needy blind showed a similar trend with average pay-

Ronald Thompson Joins Firm Here

Ronald Thompson, now associated with the Kentucky Central Life Insurance Company, will be working with Paul Gar-

Ronald Thompson

gus, district representative of the company. They have offices in the Bank of Murray building.

Thompson is a graduate of Almo High School where he was active in school activities. He has been employed by the Martin Oil Company for the past two years.

The insurance agent is the son of Mr. and Mrs. Roy Thompson of Murray and is married to the former Miss Euphie Burken. They have two children, "Butch" and Paulette.

President-Elect Eisenhower To Be Inaugurated At Noon Tomorrow; Ceremony As Hot Dogs And Baseball

By George J. Marder

United Press Washington Bureau

Tomorrow, at noon, America gives its quadrennial version of the ancient call, "The King is Dead. Long Live The King."

There's nothing quite like it elsewhere in the world. The inaugural ceremony, with its periodic peaceful transition of government control to native American as hot dogs and baseball.

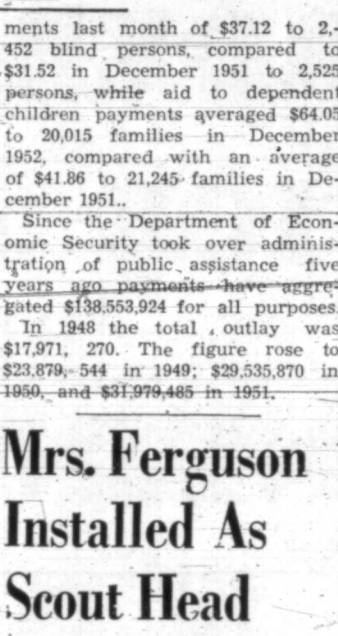

The pattern has been unchanged for 164 years surviving crises of civil and foreign war and political turmoil.

Now, the pattern has become a tradition, a symbol of the strength of our Democracy, that each four years, come what may, those in power submit to a free test of the popular will. And if they lose, they bow out gracefully, with no thought of violence.

The world will witness tomorrow the regularity with which it comes, the peacefulness with which it is performed, the tests which it has survived.

We take it for granted that once every four years, we will go through this sampling of the popu-

YOU'RE SEEING DOUBLES IN THREE PLACES

IN NEW YORK'S Flower-Fifth Avenue hospital, twins Roberto and Carlos Lopez lie in twin incubators while student nurses Nancy (left) and Sarah Young and twin medical students Martin (left) and Alan Wesley attend. Infants, sons of Mr. and Mrs. Jose Lopez, weighed 4 pounds, 6 ounces.

Advisory Council Meets Thursday

Mrs. Curtis Rags, president, presided at the meeting of the Advisory Council of the Homecoming Club Thursday, January 15. Held in the apartment of Miss Rachel Rowland, home demonstration agent, the meeting was presided over by a luncheon.

Reports for the first quarter of the year were given by county leaders and chairmen. Those included home furnishings, 4-H clubs, courthouse restroom for women, minor project, recreation, citizenship and recreation. Presidents also gave a progress report of their Homecoming Club.

Mrs. Clifton Barnett county vice-president was elected as county delegate to Farm and Home Conference with Mrs. James H. H. Barnett as alternate. Ten clubs also will send delegates. The conference will be held at the University of Kentucky February 2-7.

Meeting Planned For Firemen, Rescue Squad

A meeting will be held Tuesday night at the City Hall at 7:00 o'clock for the Firemen, Rescue Squad, Fire Department and the Murray Rescue Squad. Fire Chief Elmer Robertson urges all volunteer firemen and members of the rescue squad to attend the meeting.

Lessons will begin on fire fighting and rescue work.

Assistant Director Of Campus Lights Has Long Musical Career

Tom Ferguson, the Owensboro boy who won the Horace Heidt talent show in 1950, playing "Mary Had a Little Lamb," has become assistant director of "Campus Lights," 1953, Murray State College's musical show slated for production in the college auditorium February 19, 20 and 21.

Tom, whose parents, Mr. and Mrs. Tom Ferguson, Sr., live at 202 1/2 Clay Street, in Owensboro, graduated from Senior High School in 1950 after attending three schools in Gary, Ind., East Chicago, Ind., and Henderson, Ky.

Before enrolling, Tom came out on top in Horace Heidt's talent contest held in Owensboro with versions of "Mary Had a Little Lamb" ranging from classical interpretation to the almost-run-down music box version.

After Tom Arrived at Murray State in the fall of 1950, his solid piano playing soon made his name a familiar one on the campus. During his first semester he was elected to represent the freshman class on the Student Council, and to the MSC cheerleader squad.

Tom has also been a member of the band, chorus, and the Murray State chapter of Phi Mu Alpha, national music fraternity, co-sponsor of "Campus Lights." Last year he played piano with the fraternity

Thousands Jam Washington For Highlight Planned For Tuesday

By United Press

Political parties take a back seat to inauguration parties in Washington today.

The town is jumping. About 200,000 visitors already have arrived—and every hour brings in more from all over the country. After 20 long years, this the time for the Republicans to "howl" and they will be doing just until the wee hours of Wednesday morning.

That's when the last party should break up.

The inaugural festivities got under way yesterday. Just about every big and little dignitary turned up at a blowout at one of Washington's leading hotels. It was the state governors' reception. And three-thousand persons jammed a ballroom that has a capacity of two-thousand.

The main event for today is the so-called inaugural festival—a sort of super vaudeville show that will feature dozens of Hollywood and Broadway stars.

But of course, the real highlight of the three-day whirl comes tomorrow—when Dwight David Eisenhower is sworn in as the 34th President of the United States. The President-elect takes the oath of office on the Capital steps around noon (EST)—makes a 15-minute inaugural address of about 2,000 words—Then leads a big parade to the White House.

Eisenhower will review the parade and spend the evening hours at two inaugural balls.

Eisenhower and his official family arrived in Washington last night by train from New York. The group hurried past a large crowd of well-wishers and went directly to their suite in the Statler Hotel—just two blocks from the White House.

Today, Eisenhower is expected to meet with top Republican policy makers of the House and Senate. Apparently, he has no plans for

New Police Chief Has Been Popular Through The Years

Novel McReynolds, the new Police Chief of Murray, is a native of Calloway county and farmed until 1941. He joined the Tennessee Valley Authority at that time as a supervisor. Following three years of that work he became affiliated with the TVA.

Before coming to Murray State, he taught school in Dawson Springs, Ky., which was his home town. She was a former officer in the Kentucky Deans of Women.

Survivors include her parents, Mr. and Mrs. Will Ashmore of Dawson Springs; and four sisters, Miss Anice Ashmore, Mrs. Della Teague, also of Dawson Springs, Mrs. Rosa Miles of Hopkinsville, and Mrs. Mary Talley of Madisonville, Ky.

Dr. Ralph Woods, president of Murray State College, in mourning her loss, said, "She was a stimulating teacher, a wise counselor and a patient and sympathetic director. The character and life patterns of thousands of girls were effected for the good by Miss Ashmore and they along with all who knew her mourn her loss."

The body was first taken to the Max H. Churchill Funeral Home, then carried to Dawson Springs last night. Funeral services will be held at the First Christian Church in Dawson Springs, Tuesday at 2:00 p.m. The body is now at the Beshear Funeral Home, Dawson Springs.

Miss Ashmore was a member of the First Christian Church in Murray where she was a Sunday School teacher. She taught her class Sunday morning.

Grandson Of Mrs. Wallace McElrath In Inaugural March

Rob Major, grandson of Mrs. Wallace McElrath of Murray, will march in the inaugural parade for President-elect Eisenhower on Tuesday in Washington, D. C.

The young boy will be playing and marching with the Mt. Lebanon High School Band of Pittsburgh, Pa. Bob, who is a sophomore in high school, plays the trombone in the band. He has been playing this special instrument for two years, but has been in the band for four years.

Bob is the son of Mr. and Mrs. William Major of Pittsburgh. Mrs. Major is the former Marjorie McElrath.

Bill Swann At Vanderbilt Hospital

Bill Swann was removed from the Murray Hospital to Vanderbilt Hospital today by Max H. Churchill, ambulance driver. Swann became ill at his home Saturday, and it was deemed advisable to place him in Vanderbilt.

Weather

KENTUCKY: Partly cloudy tonight lowest in 30's. Tuesday mostly cloudy and mild. Rain likely west portion in afternoon and east portion at night.

Women Approve Winter Cottons

By United Press

Women who like the comfort of cotton dresses will be fascinated by the new rich, dark colors and patterns in which winter cotton fabrics are to be found, said Miss Iris Clark, assistant professor of home economics at the University of Kentucky.

Not only colors and patterns are new, but finishes also. Crease-resistant finishes, for example, carry such trade names as Tebezzed, Sanforset, Vitalized, Resloomed or Appressed.

Fabrics treated for permanent creases have on their labels such terms as Bellmized, Stabilized, Vita-last and Wato-set. The home sewer should familiarize herself with such terms in order to get the most for her money, said Miss Clark.

To make garments of the new winter cottons, Miss Clark recommends that you:

1. Straighten the material by pulling a thread, then correct the uneven pressing of fabric by pulling it diagonally across the corners.
2. To keep pieces from pulling out of shape and fraying, run a line or machine stitching along the seam lines after a piece is cut.
3. Use bound buttonholes rather than worked ones.
4. Press garments on the wrong side, using steam iron or a press cloth slightly dampened.
5. Consider the hand or feel of the fabric in relation to the pattern.
6. Dry clean rather than wash the dress of winter cotton for the first time or two.

ACHESON GIVEN ROUSING SENDOFF

BEFORE A HUGE CROWD gathered outside the State Department in Washington, outgoing Secretary of State Dean Acheson (right, foreground), acknowledges the cheers of the thousands of workers who served under him. The group presented Acheson with the chair he used at White House Cabinet meetings as a parting gift. (International)

TAKING

Time Out

BETWEEN CALLS

adds up to better PARTY LINE service, too

When you have several calls to make on the party line, it's a good idea to space them so your party line neighbors also can use the telephone. That's a courtesy they'll appreciate and return.

SOCIAL CALENDAR

Monday, January 19
The Alice Waters Circle of the WSCS of the First Methodist Church will meet with Mrs. A. L. Rhodes at seven-thirty o'clock. Miss Mayme Whitsett will be cohostess and Mrs. Gerda Curd will be program leader.

Tuesday, January 20
The regular meeting of the Christian Women's Fellowship of the First Christian Church will be held due to the death of Miss Ruth Ashmore.

The Business Guild of the CWP of the First Christian Church will meet with Mrs. Maurice Crass at seven-thirty o'clock.

The Music Department of the Murray Woman's Club will meet at the club house at seven-thirty o'clock.

The circles of the WMS of the Memorial Baptist Church will meet as follows: Eva Wall with Mrs. Milburn Ouland, South 13th St., at seven-thirty o'clock; Mamie Taylor with Mrs. Edgar Wilkinson, South 13th St., at seven-thirty o'clock.

The Dorcas Class of the First Baptist Church will meet at the home of Mrs. Brent Ogilind, South 13th St., at seven-thirty o'clock. Group IV, Mrs. Pardon Ouland, captain, will be in charge.

The Kirksey Homemakers Club will meet with Mrs. Kenneth Palmer at one-thirty o'clock.

Circle I of the WSCS of the First Methodist Church will meet with Mrs. Hall Hood at two-thirty o'clock. Mrs. H. E. Elliott will be cohostess and Mrs. Burnett Waterfield will be program leader.

Circle II of the WSCS of the

First Methodist Church will meet with Mrs. J. T. Wallis, South Sixth Street, at two-thirty o'clock. Mrs. W. W. Peterson will be cohostess and Mrs. Vernon Stubblefield, Sr., will be in charge of the program.

Circle III of the WSCS of the First Methodist Church will meet with Mrs. Bryan Tolley at two-thirty o'clock. Mrs. W. D. Sykes will be cohostess and Mrs. L. R. Putnam will be program leader.

The Sunbeam Band of the First Baptist Church will meet at the church at 2:45. All children between the ages of four and eight are urged to attend.

The Woman's Missionary Society of the First Baptist Church will meet at the church at two-thirty o'clock.

The Sub-District Methodist Youth Fellowship will meet at Martin's Chapel Church at seven-thirty o'clock.

The Blood River Baptist Association Women's Missionary Union will meet at the Memorial Baptist Church at ten o'clock.

US Behind In Training Of Scientists

By United Press
The United States is falling behind as compared with Russia in training new scientists.

The National Foundation For Science has reported to the President and Congress that the decline in the number of engineering graduates is expected to drop to 15,000 a year by 1955. In the same year, Russia probably will turn out 50,000 engineering graduates.

The foundation urges Congress to appropriate more funds for science scholarships.

YOUR New Government

Lloyd A. Mashburn

UNDERSECRETARY of labor in the incoming Eisenhower administration will be Lloyd A. Mashburn, who leaves the post of California state labor commissioner. Mashburn, 32, was secretary-treasurer of the Los Angeles Building and Construction Trades Council for 10 years. (International)

186,000 Miles Per Second Not Impossible

DETROIT, (UP)—An Air Force engineer says flights at the speed of light—186,000 miles a second—are possible.

But he says scientists will have to revise their basic thinking on fuels to do it.

In a report to the Society of Automotive Engineers in Detroit, D. G. Samaras of the Wright Field Air Development Center at Dayton, Ohio, urged scientists to direct their attention away from thermal fuels.

Samaras said the fastest moving thing is light. Radio, radar, and other electromagnetic waves travel at the same speed but no faster.

He said that by developing highly efficient non-thermal fuels, aircraft can be speeded up greatly.

But he added "it may take quite some time, effort and ingenuity before our primitive vehicles will fly at speeds approaching the speed of light."

Samaras listed the "Ionic Rocket" and the "Photon Rocket" as examples of non-thermal fuel.

The "Ionic Rocket" gets its force in about the same way as the jet-by electrostatic accelerations of ions. The "Photon Rocket"

uses light as its propellant.

The "Photon Rocket" is a jet-by electrostatic accelerations of ions. The "Photon Rocket"

uses light as its propellant.

New Safety Belt Made

By United Press

A new automatic safety belt has been designed to save the lives of jet pilots who are knocked unconscious when their safety seat is ejected from their planes at speeds of 600 miles an hour.

Made by the Stantley Aviation Company of Buffalo, New York, the new belt automatically releases the unconscious pilot from his falling ejection seat and automatically pulls the ripcord of his parachute.

A small explosive charge with a time fuse causes the release. The company has a preliminary order from the Air Force for five thousands of the belts.

A 12-year old boy in Newark, New Jersey, is holding his own four days after doctors used an ordinary lamp cord to shock his heart into action after surgery.

The boy was operated on for tuberculosis of the pericardium, the sac enclosing the heart. After the long operation, his heart beat became feeble and irregular.

No regulated shock machine was available at the county isolation hospital where the operation took

place, so the surgeons resorted to the use of an ordinary lamp cord.

An Illinois state senator, Roland V. Libonati, has proposed that a 14-man state legislative committee be appointed to investigate the controversial anti-cancer drug krebiozen.

Krebiozen is the serum developed by the refugee Yugoslav scientist, Stefan Durovic. It has caused a bitter controversy between president George Stoddard of the University of Illinois and Dr. Andrew Ivy, vice president in charge of the university's professional schools in Chicago.

Stoddard, with the backing of medical societies, has forbidden Dr. Ivy to continue research on krebiozen, declaring the drug to be useless. Ivy has been granted a leave of absence to pursue the research in his own time.
